## **ADDITIONAL INSTRUCTIONS**

*English*

### **WARNING!**

- Read these installation and use instructions carefully before installing and using the pergola.
- Observe the installation requirements and methods for proper and safe installation of the Pergola.

### **Instructions for use**

This pergola is suitable for outdoor use and protects against direct sun or glare. In case of strong wind (Beaufort wind force over 3 = more than 19 km/h) or forecasts of snowfall, please set the slats vertically (open). The closed slats are not designed to carry snow and ice loads. The pergola is not intended for commercial use.

### **Anchoring the feet**

The pergola must be anchored in a stable manner. Either in suitable solid ground or there must be frostproof load-bearing foundations must be built. An example: 30 x 30 and approx. 80 cm frost depth.

### **Cleaning and maintenance**

Remove dirt and dust with a mixture of water and soap (household cleaner) and a soft, clean cloth. If friction noises occur during operation, lubricate with silicone-based products.

### **ACCESSORIES NEEDED**

- Work gloves
- Knife or cutter
- Rubber mallet
- Tape measure
- Spirit level
- Cordless screwdriver & impact drill
- Suitable drill bits
- 2 stepladders
